# Stylescape iterations

Feedback from peers: Combine your stylescape with the stylescapes of your colleagues.

Stylescape 1

Feedback from client: Don't use the brown style of the "brown cafe". Use a style that resembles "Neo Smartlappen".

Stylescape 2

Feedback from client: It looks to happy and party like. For example remove the palm trees and partying people. It looks too much like a bar for in Ibiza.

Stylescape 3

Stylescape iterations

Feedback from peers and client: add elements from the posters that the client liked in to the stylescape

Stylescape 4

Final stylescape
